Precision Academics Resource Bank *Success for students with special learning needs*

The Precision Academics Resource Bank has been developed by highly experienced professionals to support schools and families in the provision of Best Educational Practice Resources for Curriculum Differentiation to support Inclusive Education

- All resources are highly visual, stimulating & completely success-based
- All resources are **outcomes-based**, supporting both Curriculum Content and Key Learning Skills, including Assessment and Work Sample pages
- All resources are linked directly to Curriculum Outcomes – including both Mainstream & Life Skills Outcomes
- These resources can be tailored to suit students of all ages and ability levels – from “Pre-School Transition” through to the end of High (Secondary) School
- **This Resource Bank** provides outstanding curriculum-based, resource support of **special learning needs** eg. Down Syndrome, Asperger’s Syndrome, Autism, English as a 2nd Language, AD/HD, **Dyslexia**, Receptive/Expressive Language Disorder etc
- Contains extensive resources for young Gifted and Talented students, **suitable for individual and group work**
- Suitable for both spoken and signed communication
- Fits seamlessly into Individual Education Plans

Precision Academics Resource Bank

is written by Val Gray, an Australian Educational Psychologist and Special Education Consultant. Val has over 25 years of working with children who have special learning needs.

The Precision Academics Resource Bank offers an outstanding collection of resources, including over 500 Workbooks, Scaffolded Booklets and Special Programs.

Print what you need, as often as you need it...Or, work directly from your computer screen if preferred. Use it now and for many years to come.

What is included in the Precision Academics Resource Bank?

- **Resources for Our Youngest Students**
Dozens of resources across most areas of the curriculum suitable for use with Pre-School or Early Primary School students who have special learning needs (Disabilities, Learning Difficulties, ESL, Gifted & Talented)
- **Resources for Our Primary Students**
Hundreds of resources across most areas of the curriculum suitable for use with Early, Middle & Upper Primary School students with special learning needs (Disabilities, Learning Difficulties, ESL, Gifted & Talented)
- **Resources for Our Older Students**
150+ Scaffolded Booklets each covering specific topics taught at High School & Upper Primary School, across most areas of the curriculum. Suitable for students who have mild to moderate disabilities, learning difficulties, ESL and other special learning needs. Plus an additional 30 Cross Curriculum Workbooks for older students with severe learning disabilities

This fantastic Australian resource is now available around the world...

“This is an excellent resource for students who have Down Syndrome or other special learning needs. The Workbooks provide great access to age-appropriate, differentiated curriculum to support Inclusive Education. We are delighted to be able to offer this Australian program to our Canadian schools and families.” **Dr. Ashleigh Molloy, President of the Down Syndrome Assoc. of Toronto; Awarded 2007 Educational Leader of the Year by the Council for Exceptional Children.**

Down Syndrome
Association of Toronto

“My daughter, who has Autism, is a High School student working towards Life Skills Outcomes. Since she has started working on the Precision Academics Workbooks and Scaffolded Assignments, her confidence has soared and she now looks forward to learning. She really enjoys the structured format of the workbooks. They are at a level she can handle. Precision Academics is such a wonderful and affordable resource. Every child with special learning needs should have the opportunity to use them. I am so thankful. The beautiful design makes each piece of work something special, which is so important to both my daughter and myself. Precision Academics is all of this, and so much more, thank you so much, I love your program!!!” **Maria Aniceto, High School Parent, NSW**

“Precision Academics provides a fantastic line of workbooks for pre-school age to High School levels. These workbooks are specially designed for those with special needs. *It takes a lot to impress me, so I have to tell you that these workbooks knocked my socks off!* I only wish I had these when my son was at school. I know they surely would have made his life in school much easier! They are big in Australia and now are making their way to the US and other countries. What is so fantastic about this program is not only do they offer these workbooks, they also have additional stuff on their site for you to use! And the best part of all is they have made their system so affordable that your school district wouldn't bat an eye at the cost! They have special prices for individuals and school districts and all you have to do

is tell them that you heard about their product from IMDSA (or any other Down Syndrome Association) and they will give you a discount! Be sure to check out their site. You can look at samples of the workbooks and see for yourself what great tools these are for your children!” **Kristy Colvin, President of the International Mosaic Down Syndrome Association**

“I teach Joe, who has Down Syndrome. He attends mainstream high school, working towards NSW Board of Studies Life Skills Outcomes. I am his English teacher. At first, when I was told Joe would be in my mainstream class, I was concerned because my students are in Grade 10, working towards their School Certificate. Very little of my existing resources would be suitable for Joe, and I thought that I would have to start from scratch to find and/or create new resources to suit his educational needs. But I went through the Precision Academics Resource Bank, which our school has available to all staff, and was able easily select workbooks and scaffolded assignments which I will be able to use with Joe. These resources are easy to use, look tremendous, and are tailor made to meet his needs. What a great result. The other students in the class are more than happy to take turns working as peer supports to Joe, which develops their teaching skills and understanding of individual differences. We ALL benefit.” **Kylie C., High School Teacher, NSW**

“Precision Academics provides an affordable option for schools, who have limited special education budgets and are looking for excellent resources for students with a wide range of special learning needs.” **Di Brown, Head of Additional Needs, Catholic Education Diocese of Armidale.**

“The Cross Curricula Workbooks, in particular, have been a total success for our student who has a severe disability. He has been able to work effectively and has produced fantastic work. He is really proud and his parents are very, very pleased.” **Mark...Principal, High School, Queensland**

“Precision Academics is an excellent program. It just plain works. I work with over 30 children at my school using this program. When I walk into the classroom carrying your Workbooks, without exception, every child is looking up at me with pleading eyes, saying, “Is it my turn yet? Can I PLEASE come with you and do the Workbooks?” Your programs work their way around and around, helping the children to master the basics. They are SO happy to be able to do it. It works and they love it. I am a true fan” **Ian...Teacher's Assistant, Victoria**

Precision Academics: Workshops and Consultancy Services

The following Workshops are available, and can be tailored to suit you specific needs (for Schools, Families, Associations)

Inclusive Education:

Differentiating the curriculum to enable students of ALL ability levels to achieve their fullest potential from primary school entry to high school graduation. This presentation gives an overview of how - with limited time, money, resources and support - every primary and high school can address the diverse learning needs of their student population, providing opportunities for every child to succeed. This is an overview of strategies, programs and resources which are readily available, and which follow the NSW Board of Studies guidelines of Best Educational Practice for all ages and ability levels.

Extension Programs to bring gifted students of all ages together:

How to implement a GTAL/Extension program in which high achieving High School students are trained to be activity leaders working with gifted primary school students.

Catering for Life Skills Students in Mainstream Classes:

How to adjust and adapt mainstream curriculum topics to suit the needs of students working towards NSW Board of Studies Life Skills Learning Outcomes (or equivalent).

Extension Programs for younger students:

How to structure and easily implement learning opportunities to stimulate and challenge gifted Stage 1 and 2 Primary School students.

‘Same class, Same topic, Different ability levels’

Specific strategies for differentiating your mainstream classroom program to extend gifted and talented students and provide structured support for students with disabilities/learning difficulties.

Using the Precision Academics Resource Bank

How to use the Precision Academics Resource Bank across the entire school or within your family to support students of all ages with special learning needs.

A Whole School approach to Special Education:

This presentation offers way to develop a whole school approach to identify, adjust, track and evaluate progress, and maintain communication relating to students with special learning needs.

Lifelong Learners

This presentation will celebrate the journey from pre-school to young adulthood for students with special learning needs, with a specific focus on students who have Down Syndrome. Suitable for teachers, parents, and teacher’s assistants. Develops an understanding of and practical strategies to address the special learning needs of students from 3 years to adulthood in mainstream classes, specialist support classes or at home.

Developing Key Learning Skills

This presentation teaches 12 “Key Learning Skills” which students of all ages to develop their creativity, confidence, problem solving, listening and instruction following skills, working memory and communication skills.

Bridging the Gap

This presentation teaches parents and educators strategies to bridge the gap between *professional reports* and *daily experiences*. For example, when IQ reports make recommendations such a “Has difficulty with Working Memory” or the Optometrist writes “Needs to develop Visual Tracking”, teachers and parents need to know practical strategies and be aware of appropriate resources for use at home or in the classroom to meet these needs.

Consultancy Services

Our highly experienced Special Education Consultants and Educational Psychologist are available to support parents and educators in your journey to provide the best possible support for your students with special learning needs. Available services include: Consultancy for Individuals and Whole School, Assessment, Resource Development, customised Professional Development. Please contact us to discuss available options.
